## A century of ventilation expertise

Founded in 1903, Ensy has delivered over 275.000 residential ventilation units across Scandinavian and European markets.

Ensy operates across Europe's most demanding HVAC markets, including: Austria, Belgium, The Czech Republic, Denmark, Sweden, Norway, Germany, Poland, Estonia, Lithuania, Latvia, Spain, Romania, and Italy.

## Why Ensy for distributors?

Distributors succeed when products perform flawlessly after installation. Ensy delivers systems designed for correct sizing, stable winter operation, and predictable energy performance, reducing callbacks, complaints, and warranty issues.

## Wave and XBO, the new innovation

The WAVE series, featuring a high-efficiency rotary heat exchanger, ensures consistent heat recovery and balanced indoor humidity. The XBO counterflow series delivers precise thermal efficiency for projects requiring maximum energy control.
